cube venezia

description

detailed proposal, final proposal and building site
supervision renovation ex artisan laboratory

client

private

A prism with a base of dimensions 1.60 X 2.60 m contains within it a kitchen, a sofa-bed extended up to a double bed, a large wardrobe system. The inclusion of this element in a loft allows you to define and functionally characterize the resulting space. In this first experiment, upgrade and equip the recovery of a portion of a former workshop in the historic center of Venice.
