## MAP | VENICE, ITALY

Francesco Magnani, Traudy Pelzel

Francesco Magnani and Traudy Pelzel started to work together in 2002. MaP deals with architecture and town planning projects in public and private commissions as well as national and international architectural competitions. Since 2003 the office has been engaged in an intense partnership with Nicola Busato's architectural office in Vicenza: a pavilion for disabled people is now under construction near Vicenza.
